Education

Georgia Institute of Technology

M.S IN COMPUTER SCIENCE

- Specialization in Computing Systems

Atlanta, Georgia

Jan. 2022 - Dec. 2024

University of Maryland College Park

B.S IN COMPUTER SCIENCE

- Presidential Scholarship Recipient from 2014-2018

College Park, Maryland

Aug. 2014 - May. 2018

Experience

Twenty (twenty.io)

STAFF SOFTWARE ENGINEER

- **Lead architecture and design decisions** in building AI-enabled cyber-warfare systems for the U.S. military and Intelligence Community, contributing to industrial-scale cyber capabilities engineered for reliability under real-world conditions.
- **Engineering systems built around recursive graph expansion** — modeling and traversing large, interconnected data structures to support operations across a large and evolving threat landscape.
- **Support platform and infrastructure engineering** efforts across the broader engineering org, joining during the company's **Series A** and continuing through its **Series B-1** raise at a **\$1.2B** valuation.

Arlington, Virginia

Jun. 2026 - Present

Capital One

SENIOR SOFTWARE ENGINEER - ENTERPRISE PLATFORMS

- **Built a distributed backend platform** capable of supporting enterprise customer-banking services, enabling automated API compliance checks across multiple microservices and engineering teams
- **Designed and implemented backend services and Python-based developer tooling** to scaffold test harnesses, generate configuration, and publish results into internal platforms (Jira X-Ray, GitHub checks), reducing manual validation effort by **~70%** across **5,000+** component tests.
- **Integrated platform services with CI/CD pipelines and local developer workflows**, enabling engineers to run full API validation suites in under **5 minutes**, improving feedback loops and increasing coverage of customer-facing services by **~40%**.
- **Led cross-team technical reviews** with **5-10** product and platform teams weekly to drive remediation of identified issues, maintaining **100% SLA compliance** while unblocking downstream engineering work.
- **Contributed to platform architecture and system design decisions** including service orchestration, performance bottleneck mitigation, and reusable component design within a large shared monorepo, improving scalability and long-term maintainability.

McLean, Virginia

Feb. 2025 - Oct. 2025

MicroStrategy

SENIOR SOFTWARE ENGINEER - PLATFORMS ON CLOUD

- **Engineered scalable and secure REST APIs** using Java (Spring MVC) and PostgreSQL to provision AWS EC2-based customer environments, supporting automated deployments across **hundreds of customer instances**.
- **Automated cloud provisioning and operational workflows** using Kubernetes, Terraform, Lambda, Step Functions, and SQS, reducing manual operational effort and accelerating environment setup times.
- **Led architectural design and prototyping for platform enhancements** that improved system reliability and reduced AWS and Azure infrastructure costs by **~15%** while supporting continued customer growth.

Tysons Corner, Virginia

Jan. 2019 - Oct. 2024

Amazon Web Services

SOFTWARE ENGINEERING INTERN - AWS MARKETPLACE

- **Designed and implemented a scalable internal tool** for business development teams, streamlining workflows and reducing manual effort by **~75%**.
- **Built backend services and APIs using AWS-native technologies** to support real-time data updates and secure data manipulation while meeting Amazon production and security standards.
- **Delivered production features in collaboration with senior engineers**, gaining hands-on experience with large-scale internal frameworks and cloud-native service architectures.

Seattle, Washington

Jun. 2017 - Aug. 2017

Technical Skills

- **Languages:** Python, C++, Golang
- **Backend & APIs:** RESTful APIs, GraphQL, Microservices
- **Cloud & Infrastructure:** AWS, Azure, Kubernetes, Terraform
- **CI/CD & Dev Tooling:** GitHub Actions, CI/CD Pipelines, Infrastructure Automation, Developer Tooling
- **Software Reliability:** Vulnerability Remediation Workflows, Compliance Automation, SLA Management
- **Certifications:** AWS Certified Solutions Architect – Associate; Microsoft Certified: Azure Developer Associate
